About NITK

NITK Surathkal is a premier institution engaged in imparting quality technological education and a broad range of research, development and consultancy activities. NITK has carved a niche for itself among the best technical institutes in India and is consistently ranked among the top 10 technological institutes.

NITK is located in Surathkal on the scenic shores of the Arabian Sea, about 20KM north of the city of Mangalore and is well connected by Air, Rail and Road. The nearest domestic/international airport is situated at Bajpe (about 10KM from Mangalore) and the nearest railway station is Surathkal (3KM). The NITK Campus is situated right on National Highway NH66 with very good bus connectivity from Mangalore, Udupi etc.

Startup and Incubation Activities at NITK

NITK's Science & Technology Entrepreneurship Park (NITK-STEP) was established in 1994, for supporting and promoting student start-up activities. It provides financial support for students' startups, with several success stories in the areas of Imaging technology, Network Cloud convergence, E-commerce, low cost/long lasting alternatives to conventional lead batteries, remote-controlled power tillers, healthcare etc. NITK Startup Cell and E-Cell also support entrepreneurial activities of students and faculty.

About the Workshop

Intellectual Property plays a key role in gaining a foothold on the ladder of success in today's innovation-driven economy. Researchers and entrepreneurs alike can obtain significant benefits from a deeper understanding of its broad spectrum and intricacies. It is also important for engineers, scientists, authors and other creators working on projects to appreciate what is involved when establishing ownership, rights and interests in valuable original material. To promote IPR awareness and to encourage innovation across various disciples, a Workshop on Intellectual Property Rights, is planned under the auspices of the NITK Startup Cell.

The proposed workshop focuses on best practices in IPR: what is essential, what is advisable, and what are the pitfalls to be avoided. Participants will learn how to deal most effectively with the material they work with: to identify, verify and protect their IPR, to commercially exploit and disseminate it, and also how to handle third party material legitimately.

Topic Coverage

- IPR in academic research
- Identifying patentability of inventions
- Strategic use of patents for Start-up growth
- Patent filing strategies & commercialization
- Government initiatives and support for patent filing

Experts from Industry and Academia who specialize in IPR management will deliver thematic talks to make participants aware of the broad spectrum of IPR related issues and challenges. Confirmed speakers include -

Prof. Sudhir K Jain (Professor, Dept. of Management Studies, IIT Delhi)

Dr. Manchikanti Padmavati (Associate Professor, Rajiv Gandhi School of Intellectual Property Law, IIT Kharagpur)

Mr. Kartik Puttaiah (CEO of Invntree IP Services Pvt. Ltd., Bangalore)

Eligibility

The workshop is open to teachers and students of AICTE/UGC approved Engineering and Management colleges. Number of participants will be limited to 100. Completed applications signed by competent authority, should reach the Coordinators on or before April 10, 2018.

Important Dates:

Last date for receipt of applications:
10 April 2018
